¹ 1 ECTS = 25-30 hours, depending on country.

² e.g.: problem based learning, case study, role play, plenary discussion, critical incident method, workshop, current /good practice sharing

³ e.g.: role-play, simulation, etc.

⁴ **Work based learning:** Whilst encompassing a broad range of activities and activity types, however, it is accepted that work-based learning centres on the acquisition of knowledge, skills and competences through action-based or reflective learning *in a vocational or occupational context*. (source: <https://www.wbl-toolkit.eu/site/introduction/whatiswbl>). These might include various forms, such as Apprenticeship, Stage, Internship and others, depending on national rules and training contexts. Apprenticeship, Stage, Internship, etc. can vary as far as the level of autonomy of the students and also the kind of supervision provided (faculty staff vs. staff external to the faculty, etc.). In our view, there is no need to specify the specific type of work-based learning at this stage, as this will give more flexibility to future adopters of our Curriculum to define the type of work-based learning that better suits their contexts.
